*The process is quick and easy.*

Following the step-by-step instructions in the booklet you receive, simply choose a background photo. And after considering four layout options, you'll find just the look you want for the personal photos you include in your collage. Finally, you'll note your preference of fonts, choose a caption that describes your experience, and select a matting color that will best complement your pictures and your home decor.

Three weeks after we receive your application and photos, we'll ship out your photo collage ... complete with captured memories that mark your adoption day as a joyous event.

(Additional copies are available for friends or loved ones at a reasonable charge.)
